

PANORAMO SI 4K

No other system captures the quality or quantity of data that the PANORAMO® SI 4K does. It's unique ability to capture every inch of the manhole ensures you never miss an observation. The PANORAMO® SI 4K can be used as an add-on to your existing PANORAMO® system, or can be used as a portable stand-alone unit with our new KW SI Cable Reel. This newly designed cable reel can be operated from the mobile rack with a laptop, or it can be installed in a vehicle. The quick-acting fasteners allow the cable reel and mobile rack to be removed from the vehicle and converted into a mobile system in a few easy steps. All of the components of the system are intended for outdoor use, from the large pneumatic tires to the water-resistant laptop. Power is supplied from high-efficiency standard rechargeable batteries or a lithium battery installed in your vehicle.
