

SELF-CONTAINED COMPACTORS

Pak'nTainer®

Self-Contained Compactor/Container

Pak'nTainer® Features

- ▼ Portable design for easy placement
- ▼ Front, rear, and through-the-wall loading options
- ▼ Economical self-contained compactor with remote power pack
- ▼ No anchoring required, suitable for concrete or asphalt surfaces
- ▼ Tapered container provides superior compaction ratios and aids in waste ejection
- ▼ Liquid-tight construction is perfect for wet waste, and ensures a sanitary environment

The Worldwide Compaction Leader

Marathon® Equipment is known throughout the world as one of the leading manufacturers of quality on-site waste compaction products. The RamJet® brand has been the industry standard for quality and innovation for more than 50 years, and includes stationary and self-contained compactors, compaction containers, apartment and high-rise compactors, pre-crushers, auger-style compactors, transfer systems, and a wide array of options for virtually any application.

SELF-CONTAINED COMPACTORS

Marathon® Pak'nTainer® (MPT)

Available in 5.5 Cubic-Yard Front-Load Model

Perfect for:

-  Supermarkets
-  Restaurants
-  Hospitals
-  Clinics
-  Nursing Homes
-  Shopping Centers
-  Airline Food Service
-  Malls
-  Schools
-  Convenience Stores

The Marathon® Pak'nTainer® is a portable and economical self-contained compactor/container with a remote power pack.

The **Pak'nTainer** is specially designed for compacting and containing wet or dry waste and simplifying waste dumping.

Its liquid-tight design helps maintain a sanitary environment, while saving money, for those generating as little as 20 cubic-yards of refuse a week.

Place the **Pak'nTainer** wherever needed, whenever needed — temporarily or permanently. No anchoring, no concrete pad, no special surfaces required. It can be used alone or to “fill the gap” in combination with other units.

The container is tapered to achieve superior compaction ratios and aid with waste ejection, which eliminates excessive wear and tear on collection trucks. It can also be chute-fed to allow the container to be placed in an area that is not aligned with a wall opening, similar to self-contained or stationary compactor applications.

SELF-CONTAINED COMPACTORS

Marathon® Pak'nTainer® (MPT)

Features & Benefits

Pak'nTainer® Features

- ▼ Large 48" x 22 9/16" clear-top opening handles even large, bulky items
- ▼ Cycon Life-Xtender™ Control System (for use with 3-phase only) reliable PLC controls eliminates the need for limit switches, dramatically improves cold-weather performance, and reduces maintenance costs and downtime
- ▼ Fixed breaker-bar teeth help keep materials in container and charge box clear
- ▼ Hydraulic plumbing to both sides with quick-release disconnects for added versatility in any application
- ▼ Tri-voltage standard for easy conversion to 208-, 230-, or 460-volt power
- ▼ Single-phase 110 with 3/4 hp motor available at no additional charge
- ▼ Heavy-duty hinges for durability
- ▼ Lockable panel box to increase security
- ▼ Convenient low loading height

Pak'nTainer® Optional Features

- ▼ Hopper enclosures
- ▼ Security chute
- ▼ 90-gallon cart dumpers
- ▼ Ozone generator

Cycon Life-Xtender™ Cyclic Control System

Standard on all **Marathon**
Pak'nTainer compactors.

Simple and durable latch assembly

*Easy-to-operate latch saves on
time and maintenance.*

Protection with optional hopper and lids

*Pak'nTainer with optional hopper
and plastic lids to keep contents
in, rain and the elements out.*
